For instance, at this time, William J. V. Deacon, assistant chief food and drug inspector and the state official is in charge of the hotel in-ion invasion over the state bably has more to contend with than any man in the state house. In fact he receives at his deak 85 first class letters every day—more than in any desk in the state house. And practically every one of these letters has its tale of woe.

The new hotel inspection laws passed by the last legislature and instigated through the disastrous hotel

fires in this city are being enforced throughout Kansas at this time and of the 1,700 hotels in the state each

of the 1,700 hotels in the state each of them has its story to tell and its excuse to make.

But there are some cases which come up before Mr. Deacon which command a good amount of the sympathy from the less strict side of his make up. Recently a letter came to him that is a good representation of the conditions of the small country

The letter came from a little "atthe-bottom-of-the-hill" village in the
southern part of the state and was
written in the old English hand
writing—significant of the toil and
the heavy thought placed behind it. It
told of the small frame hotel they
were conducting, the bare means

Whatever his evil purposes, I have corrected them." inspector prove this. Hotels are clossing every day because they cannot atford to place fire escapes in their buildings and because there is no return for their investment. Eventually every town under 2,000 population in Kanssa will be a one hotel town and the suffering traveling public will be obliged to take just what they can get. The sanitary conditions of the new inspection laws are cheerfully met by the hotel owners. They realize the danger of this to themselves. But it takes a man with a mighty imagination to feel that he must have a rope, a red light, a chemical extinguisher and a fire department to get out of the second story window of a low frame hotel. One step on the window still, a drop of the foot to the window below and the man is easily able to ease off on to the ground.

But the state says that the room must be equipped with ropes, etc., and

Eczema - Hands Bandaged to Keep from Scratching — Was a Fearful Sight and Defied Cure.

CUTICURA MADE SKIN CLEAR AND HEALTHY

"My baby's eczema came on when he was three months old, like a rash on his face and then spread over his head. Then there began to form a lot of small pimples over his head from which a watery substance came out and formed a regular mass of crust all over his head, face and body. I had to tie woolen cloths on his hands to keep him from scratching himself. He was a fearful sight to look at. I went to a drug store and tried some of their remedies for eczema but they did not do him any good. I then called in one of our leading physicians and he tried several kinds of medicine and gave me prescriptions, but they only made him worse.

"At this stage a lady friend of mine came in and advised me to try the Cuticura Remedies. That afternoon I sent for a cake of Cuticura Soap, a box of Cuticura Ointment and one vial of Cuticura Pills, and in less than a week I could see a vast improvement in him. I washed him all over every morning with the Cuticura Soap and gave him an application of the Cuticura Ointment after his bath. I kept on using the Cuticura Remedies until he was completely cured. They left his skin clear and healthy and I always have kept the Cuticura Brows suffering from eczema. Mrs. Kate Brougham, 200 Dewey St., Bennington, Vt., Dec. 5, 1908 and Jan. 17, 1909."

This will greatly accelerate the movement of fire apparatus, it is claimed.

Delay that is costly to insurance companies is frequently encountered by firemen on account of the difficulty in guiding engines and other apparatus through crowded thoroughfares. The police signal system in use in the downtown district is equipped with gongs for calling patrolmen to the boxes in cases of emergency. These boxes are two blocks apart, and a policeman can hear the ringing of the gong no matter where he is if on the street.

Attorney General Jackson Passes on Rock Roads Laww.

Attorney General Jackson has held that the new rock road law passed by the last legislature is constitutional. A delegation from Johnson county under the leadership of their senator. George Hodges, visited the office of the attorney general recently to see if this law would hold good in their county. The people of Johnson county are anxious to build some of these new rock roads and they want to be right on the constitutionality of the law before they commence operations.

Johnson county has always been in the lead for good roads and since the lest legislature they have planned out an excellent strip of it in their section of the state. They did not know whether to let the job by the mile or by the joh and they asked the attorney general what he thought of it. Either manner is correct and the people went home happy.

Wall St., New York, Oct. 1.—STOCKS—
The opening stock market today was irregular within a narrow compass although the dealings were active. Atchison was a feature with a rise of a point, and Pacific Mail advanced 1% and Canadian Pacific 2. Chesapeake and Ohio declined 3.

Active stocks moved within a narrow circle, but showed a tendency to heaviness, most of the leaders ruling fractionally below yesterday's closing during the first hour. There was a good inquiry for many of the minor specialties. Pacific Telephone and Telegraph, which was dealt in for the first time on the board, jumped from 48 to 54%. Lackawanna gained 5 points, Pacific Mail 2, American Car preferred 1%. Reading and Interborough Metropolitan preferred 1% and People's Gas. International Paper preferred, International Harvester and Mercantile Marine preferred 1. Chicago, St. Paul, Minneapolis and Omaha declined 4 points, Chicago and Alton 1% and Pennsylvania and Consolidated Gas 1. There was a brisk rally before the end of the hour.

The coalers became notably strong, Reading rising 2. Delaware and Hudson 1% and Lackawanna 15. Atchison's gain was stretched to 1%. Amalgamated Copper advanced 1% and Sloss Sheffield Steel 1%. United States Steel touched 5%. Illinois Central declined 1.

Bonds were irregular.
